Dear Motor State Dealers ,

If you are a Key Solutions system user your search for a replacement system should include a review of HPSolutions' hpCommerce software. We are ready and able to handle all your specialized inventory management and point-of-sale requirements:

- HPSolutions has exclusively served the needs of performance shops of all kinds since 1992.

- hpCommerce is designed to handle inventory management, pricing and point-of-sale the way you think about your performance business. This isn't a generic retail package that you have to bend and jump through hoops to get to work for you.

- hpCommerce includes electronic price updates.

- hpCommerce includes integrated credit card processing with four second approval times.

- hpCommerce supports Barcode Scanning and Printing, Bill of Materials and Kits. Also included are Purchase Orders, Quotes, Accounts Receivable, Accounts Payable, Check Register, Check Printing, General Ledger and much more.

- hpCommerce includes unlimited technical support provided by technicians located in the United States.

- hpCommerce includes unlimited product updates.

- hpCommerce requires no specialized computer hardware. We work with a standard PC running Microsoft Windows.

- hpCommerce requires no specialized network server. No high powered, expensive server is required to network hpCommerce. With just a basic PC you can run hpCommerce on a network of 2 to 10 computers.

What if I don't have a standard PC running Microsoft Windows?

- HPSolutions will purchase, configure and ship PC's to your door. Complete POS systems starting at less than $700 including flat panel monitor, barcode scanner, credit card reader and more from manufactures Dell or Gateway.

What do I do with all my Key Solutions Data?

- HPSolutions can convert into hpCommerce your Parts, Customer and Vendor files from Key Solutions.

- For a limited time HPSolutions is offerings this conversion service for FREE.

What does hpCommerce cost?

- hpCommerce cost $365 per year.

- Additional user licenses are $10 per year per workstation.

- **Unlimited technical support and product updates are included**.

- There are no start-up fees.

- There are no hidden costs.

How could software this inexpensive by any good?

- For once in your life a software company is not out to take advantage of you with some pompous, inflated POS package that you hate to look at everyday.

- But if it would make you or your boss feel better we can tack a few zeros onto the end of the price.

Will hpCommerce hamper my growth or slow me down?

- Absolutely not! hpCommerce is state of the art software built on a rock solid foundation.

- We publish an average of one software update a month that adds customer requested features.

- hpCommerce integrates with shipping systems.

- hpCommerce integrates with eCommerce systems.

- hpCommerce even features a special Remote POS system.

Sounds great! how do I get started?

- Simply call 765-289-6744

It's time you got a great deal to help your business with the bottom line. You owe it to yourself to investigate hpCommerce. You know you are going to have to make a decision to purchase a new POS system in the next 12 months, why not make the decision you won't regret?

Sincerely,

Rhett Scott
Managing Partner

PS: In this business climate can you afford to pay or is it even wise to pay $1,000 per month for software and support? Is it a good business decision to pay $5,000 to $10,000 to start a new POS system? hpCommerce is the affordable, high-octane solution for your performance business. Check us out.
