**Notes:**

When a cam is to be nitrated, it automatically turns it into a custom grind part number & price. The nitride part number is 1-111-1 and the fee is approximately \$130 in addition to the cost of the cam. Call for the exact price. Allow additional 5-10 working days to complete the nitride process.

Example of a 12-232-4 to be nitrated:

- (1) 12-000-5 (Spec's: Build same as 12-232-4, but nitrated)
- (1) 1-111-1

CL, K, GK, and SK kits would be broke down and sold separate also. So a CL kit would be sold as (1) 12-000-5 (1) 1-111-1 (1) 833-16
